This campaign will be the most intensive in history. Mr. Nixon plans to hit every one of the 50 states, Senator Kennedy probably will too. Both are indefatigable, and possessed of almost unbelievable vigor. Both belong to the tough modern school of politics, in which quarter is neither asked nor given.

Purely partisan considerations apply less and less in choosing the Chief Magistrate. So, as the saying goes, both candidates will run scared.

From where I sit ... by Joe Marsh

No News Like True News

Nothing makes a newspaper editor happier than a "scoop." But it seems to me some editors overdo it now and then.

Last week, for example, an editor claimed his paper was the first in his city to report the Mayor's "impending retirement." But, judging from the next day's edition of the same paper, the Mayor had other ideas.
As a result, the lead edito-

rial in that newspaper then started off like this: "We are glad to be the first paper in the city to inform our public that the story of the Mayor's

retirement is just a rumor."
From where I sit, facts and truth always win out, no matter how you disguise them. That goes for newspapers as well as for neighbors. For instance, your choice of beverage may be a glass of iced tea ... mine is an occasional glass of beer. Now each of us could make up quite a "story" about which of us is right. But the

fact is we're both right-now

let's just respect each other's

point of view. Eve Marsh
